The screenshot shows a web browser displaying the 'Vocal for Local' website. The website has a header with 'VOCAL FOR LOCAL' and navigation links: 'Home', 'Products', 'About Us', 'Client Login', 'Vendor Login', and 'Admin Login'. The main content area features a large image of a jewelry store with the text 'THE LOCAL STORE' and 'VOCAL FOR LOCAL' overlaid. The Chrome DevTools Application panel is open on the right, showing the 'Manifest' tab for 'mvogms/site.webmanifest'. The panel displays various application settings, including 'Errors and warnings', 'Identity', and 'Presentation'. The 'Identity' section shows the name 'Vocal for Local' and the short name 'VocalLocal'. The 'Presentation' section shows the start URL as '/mvogms/index.php' and the theme color as '#2196f3'.

The screenshot shows the same web browser displaying the 'Vocal for Local' website. An 'Install app' dialog box is overlaid on the website. The dialog box has a title 'Install app' and a subtitle 'Vocal for Local localhost'. It contains two buttons: 'Install' and 'Cancel'. The background of the dialog box shows a blurred image of the jewelry store from the website.
